## Lead role in Theatre performance

On 13<sup>th</sup> November 2021, Daniel Hay played the part of Grandfather in a performance at the Barnfield Theatre. The Topsham School of Dance were performing their annual showcase: 29 dances woven round a story of a Grandfather taking his two grandchildren on an adventure in his time traveling machine. Daniel was contacted a few days before the show to ask if he would step into the lead role, as the boy due to play the part

had tested positive with Covid. With only three days to learn the script, Daniel gave a convincing performance as a slightly eccentric older gentleman travelling through time and visiting various locations.
