## Aid trip to Ghana

In October 2021, whilst studying for her A Level exams, Hermione travelled to Ghana as part of an international aid programme to support children and adults. Here Hermione writes:

*“Following a request for donations to take with me on my trip, I was overwhelmed with the generosity here at Colyton and I am thrilled to say that I took pretty much everything with me.*

*It was a pleasure to see children and adults alike so thrilled with receiving your donations and something I will never forget. The toys were popular and provided hours of entertainment!*

*The donated medical supplies were especially useful. Most of them were given to Projects Abroad to take on outreach visits with future volunteers, as this is how every person in each community accesses first aid treatment. Thank you to everyone.”*
